DOMESTIC NEWS.

The California Tax Case.

New York, October 8th .- The Supreme Court

New York, October Sth.—The Supreme Court, which meets at Washington to-dsy, is soon expected to hand down an important decision on the question as to whether the power of the State to tax corporations within its limits is controlled by the four-teenth amendment to the Federal Constitution. The Herald says: California made a distinction in its tax laws between railroad property and the property of individuals. The companies claimed that the discrimination against them was prohibited by that clause of the four-teenth amendment which declared that "No State shall deny to any person within its jurisdiction the equal protection of the laws." This issue raised two important questions—first, whether a corporation is "a person" within the meaning of the amendment, and, second, whether the amendment was aimed against unjust discrimination in FIFTY CENTS A BOTTLE. the amendment, and, second, whether the amendment was aimed against unjust discrimination in taxation. The United States Circuit Court in California, in elaborate opinions, written by Justice Field and Judge Sawyer, decided both these points in favor of the companies. The case was argued before the Supreme Court last December. The difficulty of the problem may be inferred from the fact that the Court, after having the matter under consideration for six months, adjourned without giving an opinion. The far-reaching effect of this expected decision is shown by the fact that the principle affirmed will apply to all corporations, except musicipal, in every State in the Union.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, seftens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from techning or other causes.
